1.0 INTRODUCTION

This document describes the policy for administration of the Temagami First Nation Post Secondary Program (TFNPSP).

The objective of the TFNPSP policy is to ensure that a maximum number of TFN members are able to achieve their academic and vocational goals through the funds available for this program.

Temagami First Nation Chief and Council have adopted these policies and mandate the Education Director to follow the policies as written to ensure fair and objective decisions for all students.

In summary, the sponsorship process is simplified as follows: TFN members requesting post-secondary funding are provided a copy of this policy. Application is made to one or more post-secondary institutes. The application forms are completed and returned to the Education Director along with verification of application. The Education Committee will then appraise the applications in terms of funding priority and funding availability and advise the student as promptly as possible as to whether or not his/her application for sponsorship has been approved.

2.0 ELIGIBILITY FOR POST SECONDARY

To apply for assistance, the applicant/student must:

1. Be a member of Temagami First Nation as defined by the Indian Act.
2. Be currently enrolled or have made application to a qualified post-secondary institution. This includes college, university, public or private professional schools (examples are the Anishnabek Educational Institute, Kenjgewin Teg Educational Institute, CTS).

3.0 HOW FULL TIME STUDENT FUNDING IS PRIORITIZED

3.1 DESCRIPTION OF VARIOUS TYPES OF STUDENTS

Full-time Students: Students are considered full time if they are classified as full-time by the educational institute that they are attending. When justified with an education plan students will be considered full-time provided they are required to attend classes/lectures for a minimum of nine hours per week.

Continuing Students: are those currently funded by the Temagami First Nation, are in good academic standing (grade point average of 2.0 or higher) and are abiding by the policies contained in this manual.

Recent Secondary School Graduates: are those who have successfully completed the requirements for their Secondary School Diploma and are entering a post-secondary program for the first time and are accepted into a program according to the provisions of this Manual. Applicants under this section must apply for education assistance within two years of their secondary school graduation date.

Deferred Students: students that have applied for funding and meet all the criteria for funding in this manual but are deferred because of INAC funding shortfalls and have reapplied.

Graduate and Post Graduate Students: are those students that are accepted into graduate or post graduate programs and are not considered continuing students.

Returning/Mature Students: are those who have been accepted into a post-secondary program that are returning or entering post-secondary studies for the first time either based on previous education or considered mature students as defined by the institution offering the program.

3.2 FUNDING PRIORITY LIST FOR FULL-TIME STUDENTS

| | |
|------------|---|
| Priority 1 | Continuing Students in current program |
| Priority 2 | Recent Secondary School Graduates |
| Priority 3 | Continuing Students proceeding to next level of education in related field |
| Priority 4 | Deferred Students Students must reapply each year to remain on the deferred list. |
| Priority 5 | Post Graduate Students |
| Priority 6 | Returning / Mature Students Priority will be given to those that a) have never attended before b) are proceeding to the next level c) want to obtain a 2 nd diploma or degree at same level or go from level II to level I |

NOTE: Limits of funding support will be considered when prioritizing students.

4.0 FUNDING SUPPORT

TYPES OF FUNDING SUPPORT

There are five types of funding support; students are required to identify the amounts requested on the application form. The Temagami First Nation will not be responsible for repaying any loans for education taken out by the individual student.

Tuition

Tuition will be paid in full, for all mandatory tuition expenses, for all sponsored students.

Students are required, if possible, to opt out of any medical or dental plans offered by educational institutes, and failure to do so will result in the student being billed for these charges.

The fee for application to Colleges and Universities will be paid directly by TFN if requested by recent secondary school graduates only. All other students must pay the cost for applicable fees such as confirmation, application and registration fees associated with applying to a Post-Secondary Institution. Once sponsorship is approved, the student must supply original receipts to the Education Director for reimbursement of these costs.

The TFN Education Director will issue a confirmation letter on behalf of the sponsored student to the Post-Secondary Institution that guarantees “payment for tuition”. TFN Education Department will be invoiced directly by the school.

Books & Supplies

Students are to provide the cost of books on the application form from the course calendar and submit book list. A \$600 allowance for books and supplies will be issued at the beginning of the school year for full-time students, upon submission of a book list. Arrangements can be made for payment directly to book store. Students are required to keep all book receipts.

Students requesting reimbursement for expenses beyond the allotted amount must submit original receipts accounting for the \$600 and the additional funds requested. Eligible expenses beyond the allotted amount will be reimbursed.

For part-time and correspondence students, books and supplies for each course will be reimbursed upon submission of receipts or payment can be arranged directly to the educational institute.

4.1 TYPES OF FUNDING SUPPORT (cont'd)

Living Allowance

Living allowance is to be used for accommodation, food and sundry items. Living allowances will be deposited directly into student's bank accounts if students so choose, and they have an account with the Bank of Nova Scotia. Students must complete the direct deposit form and submit to the Education Director by August 15th. Living allowances will be issued on a monthly basis by the last working day of the month preceding the month for which the living allowance is for, except for the April payment that will not be issued until the first working day in April. A list of deposit dates will be provided to students at the beginning of the school year.

Schedule of living allowance can be found in Appendix A.

At the beginning of the school year, special consideration may be given for an advance for rent.

University or College Residence – Special arrangements for residence fees can be made upon request.

Travel Allowance

The TFN will subsidize travel for full-time sponsored students. Student traveling from their normal place of residence to an educational institute in another community may apply for and receive a maximum of \$200.00 per year. Applications will be reviewed and approved on an individual basis.

Supplementary Request for Special Assistance

Special circumstances may arise that require additional funding for contingencies arising from the course curriculum that was not known at registration. The Education Director will review the request and inform the student in writing of the decision.

To apply for the special funding the student must:

1. Make a written application to the Education Director that describes in detail what the funds are for and why they are necessary to the course.
2. Provide a written support letter from the Institution that describes why the student requires the goods or services to complete the course.
3. Understand that approval for these requests are subject to the availability of funds and the importance of the request.

After approval for funding, arrangements for payment directly from TFN can be made or original receipts can be submitted for reimbursement.

4.2 LIMITS OF FUNDING SUPPORT

Students must be aware of limits to assistance and take any special needs into account when making decisions regarding their education plans.

Assistance will be provided for four levels of Post-Secondary Education as follows:

Level 1 – College or equivalent

Level 2 – Undergraduate University Degree

Level 3 – Graduate University Degree (Master's)

Level 4 – Post-Graduate Degree (Doctoral)

Program Limits

Education allowance assistance is for the purpose of completing one diploma or degree at the different levels of post-secondary study, with the exception of stepped/concurrent programs.

Students proceeding from Level 1 to Level 2 are considered continuing students if the Level 2 program is directly related to the Level 1 program.

Students who have completed Level 2 may be funded for Level 1, if funding is available.

Students who have completed level 3 or level 4 will not be eligible for level 1 or 2 programs.

Time Limits

The time period TFN will fund a specific full-time course of study is the official length of the program, as identified by the educational institute and stated on the Application for Funding Form. It is very important that each student understands that TFN expects students to take a full course load and to pass the courses they are enrolled in. Special consideration will be given for completing a program beyond the official length of the program up to a maximum of one year if the extension can be justified, an education plan has been developed in consultation with an Education Counsellor and it has been approved by the Education Committee.

Funding approval may be granted beyond the regular course length if the student provides verified proof of a medical reason or compassionate grounds for extensions. The onus will be on the student to notify the Education Director immediately upon any disruption in their studies. The maximum time allowed for extensions in funding for medical or compassionate reasons is one year.

4.3 FULL-TIME FUNDING

For those students sponsored for full-time education, all types of funding support can be applied for. Full-time students must abide by all the policies contained in this policy manual.

Full-Time Students who choose to fast track

A student is considered to fast track if they will complete their program earlier than the expected graduation date. A TFN student who is in full-time studies and wishes to fast track must attend at least one intersession course and at least two summer courses to be considered for full financial support for the whole summer.

The student must also meet the following criteria:

1. Make a formal written request including an education plan demonstrating that they are fast tracking to the TFN Education Director by March 1st in the year they wish to fast track.
2. Submit grade transcripts for the winter session and class schedules for intersession and summer school as soon as they are available to the Education Director.

Book Expenses will be reimbursed upon submission of receipts.

4.4 PART TIME and CORRESPONDENCE FUNDING (credited)

Part-time students: are those who have been accepted into a clearly defined Part-Time program or those that are taking courses for credit towards a certificate, diploma or degree.

Students interested in taking part-time or correspondence courses must request funds by the May 30th deadline. Requests beyond this date will be considered based on availability of funds. Temagami First Nation will only fund students for 2 courses at any given time.

The following expenses will be considered for part-time and correspondence students:

1. Tuition costs for courses approved by the Education Committee will be paid in full.
2. Books and supplies for each course will be reimbursed with submission of receipts or payment can be arranged directly to the educational institute.
3. Supplementary funding may be requested.
4. Monthly living allowance if enrolled in a short-term program on a full-time basis and must reside away from home.

Part-time students (cont'd)

Students are required to:

1. Abide by the policies in this manual.
2. Submit final grades for courses before they will be considered for any further funding. Failure to complete or pass a course may be dealt with in one of two ways:
 - Option 1: Repay all funds received. You are immediately eligible to receive further part-time funding.
 - Option 2: Self-fund the failed course with the same course or with a course of the same academic level, credit value and tuition costs as the failed course. You will not be eligible for further education assistance of any kind until proof of successful completion of the self-funded course is received.

4.5 SPECIAL INTEREST COURSES (non-credit)

Special Interest Courses are those courses that are offered by an approved post-secondary institution. Consideration for this type of program is based solely on the availability of funds and on the individual merits of the application. Examples of this type of program are First Aid, Creative Writing, C.P.R. etc.
