The L&R department will be hosting a session to provide information to community about Resource Revenue Sharing. Resource Revenue Sharing is the practice of sharing the economic benefits of resource extraction. The province proposes to share revenues from the forestry, mining and aggregate activities which occur within n'Daki Menan.

After participating in a resource revenue sharing pilot project in 2017, TFN was approached by the province in January 2022 to discuss entering into a resource revenue agreement.

At this information session, we will be covering the context of resource revenue sharing in n'Daki Menan, and reviewing the agreement which has been negotiated with the province.
