Lands and Resources

# Lands & Resources

## Youth Engagement Session

Wednesday, June 29<sup>th</sup>, 2022

6pm - 8pm

### Lands & Resources will be hosting a virtual presentation for youth through Zoom to discuss the Onshore Pipeline Regulation Discussion Paper Review

- The Onshore Pipeline Regulation (OPR) as provided by Canadian Energy Regulator (CER) are rules that organizations (companies, etc.) with authorization are required to follow in the processes of building and operating their onshore pipeline(s).
- The OPR has been in place since 1999 and was issued under the National Energy Board Act.
- The OPR functions as a single regulation that is applied to all CER-regulated companies across the entirety of Canada.
- The CER is now conducting a full review of the OPR under the CER Act to update the regulations.
- As part of the review, Temagami First Nation has been asked to provide comments and concerns about the OPR discussion paper.

Please use the following link to join the meeting:
